About the Latch On America Tour

45 days. 30+ cities. 1 goal: to support, **empower** and **connect** the breastfeeding community.

There has never been more momentum in the breastfeeding community than right now! From **The Surgeon General's Call to Action** to the **First Lady's Let's Move Campaign** to a passionate advocacy and support network to multiple celebrity endorsements, breastfeeding has been making headlines!

To celebrate this progress, **Milk for Thought** is taking the energy, passion and dedication of the breastfeeding community on the road in a big pink bus tour!

In 30+ cities across the country, we will support the Surgeon General's Call to Action for breastfeeding while a film crew captures the breastfeeding stories of mothers and advocates and profiles all amazing organizations we meet along the way.
